

Change Server Name

Before following these steps, make sure to stop your server first. This is to avoid breaking anything on your server while you edit.

Step 1: Head to your game panel and look for your **File icon** on the left hand side.

// Photos to be added on AH 2.0

Step 2: When you are in you files, scroll down until you see a file named: **serverconfig.xml**

// Photos to be added on AH 2.0

Step 3: Open the file and look for the line that says: **<property name="ServerName" value="My Game Host"/>** . When you have found this line, you just need to add you new server name in the Value area.

Before:

```
<property name="ServerName" value="My Game Host"/>
```

After:

```
<property name="ServerName" value="AlienHost"/>
```

//Photos to be added on AH 2.0

Make sure to save before exiting the file.

After Completing these steps, you can now go and start you server.

//Photos to be added on AH 2.0
