How to Connect to your Server

As you might have noticed in your Panel, your server does not contain a **IPv4** ,just an alias which could look like **quasarus.alienhost.me** while this is easier to read and remember it is unfortunately not always usable in certain configurations and settings, with this guide we will show you how to use the given **alias** and turn it into numeric **IPv4:**

Step 1: Head to th

Step 2: When you   **Join A Game**. And click

on **Connect to IP:**
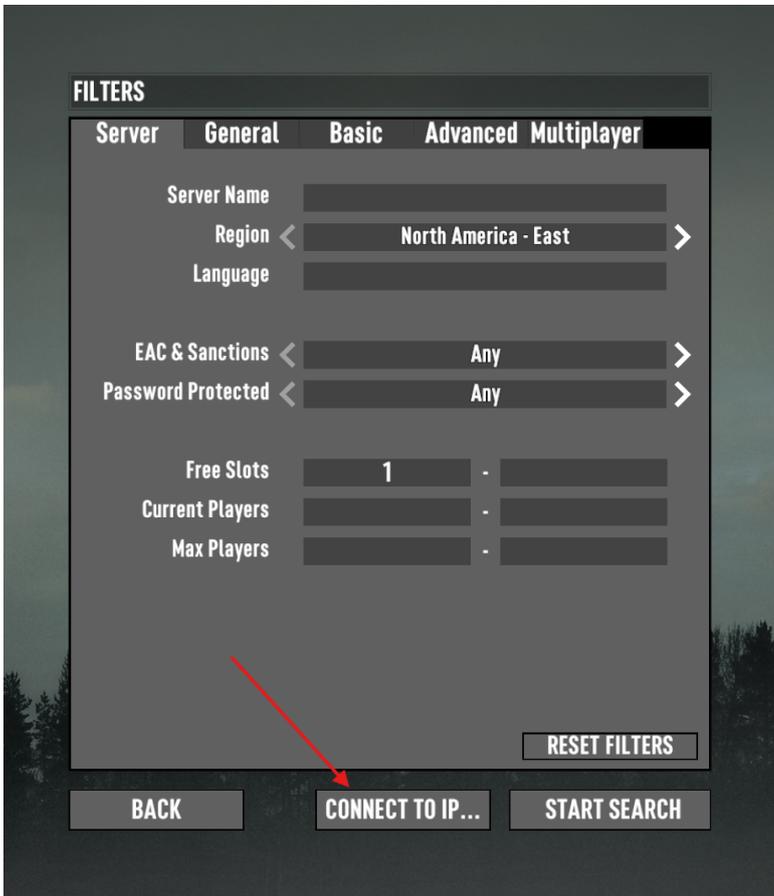

Step 3: When you click the **CONNECT TO IP... Box.** You can now add in you IPv4 address and Port number. To get you port number, go to you server panel and your port number should be next to hostname.
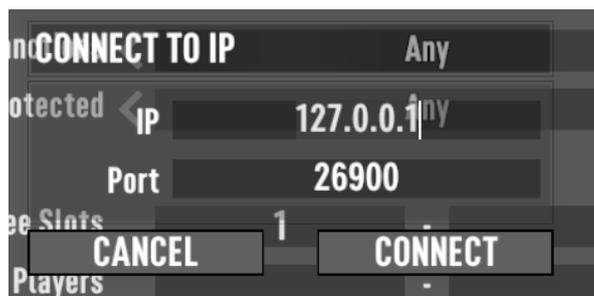

Port
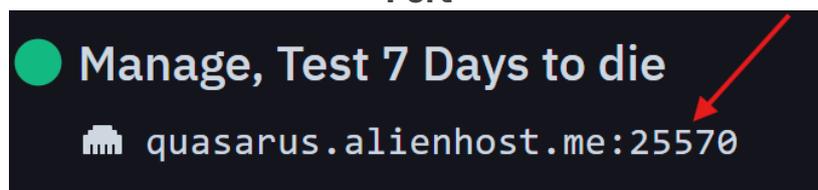

Now you are in the server. Happy hunting.
